London – May 2009. Sapphire Systems today announced that it has been awarded a 2009 SAP® Pinnacle Award in the Small and Mid-size Enterprise category.

Sapphire Systems is named as the number one partner for SAP focused on SAP Business One in the EMEA region - delivering impressive SAP license revenue. The London-based company with regional operations in the United Kingdom, and in the United States, overachieved on targets for 2008 and supports over 150 SAP Business One customers.

SAP Pinnacle Awards were granted to leading SAP partners that have excelled in enhancing the customer experience, addressing critical issues such as accelerating co-innovation and improving return on investment. Winners were selected based on over 300 nominations, twice the amount in 2008, received from partners and SAP employees.

“SAP is committed to working with partners of all sizes to be as successful as possible in partnering with SAP,” said Patricia Hume, senior vice president, Global SME Indirect Channel, SAP, “Partners like this year's Pinnacle award recipients exemplify excellence in action. They are very successful companies and are devoted to helping mid-sized companies meet their specific business needs. We thank Sapphire Systems for their dedication and passion to partnering with SAP to help redefine the customer experience in the midmarket.”

Ian Caswell, Sapphire Systems' managing director, received the award at a special awards ceremony held on the eve of SAPPHIRE® 2009, SAP's international customer conference held in Orlando, USA earlier this month.

On collecting the award Ian said “We are absolutely thrilled to have been awarded this accolade by SAP and it means a great deal to us to be acknowledged as the leading SAP Business One partner in the EMEA region. We always try to go the extra mile when it comes to looking after our customers and will continue to look for new ways to even better support them.”

“We are delighted that Sapphire has been recognized by the SAP Pinnacle Awards,” added Ben Crow, Channel Development Manager for SAP Business One at SAP. “The team at Sapphire work hard to offer their customers an outstanding service and the award is well deserved.”

- END -

About Sapphire Systems plc
